

Belgrade Theatre, Coventry

Rehearsal Room Floating Floor
CDM-ISO-MONT-100, CDM-ISO-MAT

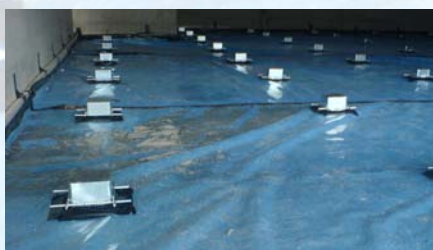

Client	Belgrade Theatre
Main Contractor	Interior Exterior
Architect	Stanton Williams
Acoustic Consultant	Arup Acoustics
Area	362m²

Belgrade Theatre in Coventry is going through a major overhaul during which a new auditorium building is being constructed. In this new building the rehearsal space is directly above the main auditorium.

The acoustic consultants, Arup Acoustics, specified that the floor in the rehearsal room should be a specialist designed jack-up floating floor. The CDM-ISO-MONT-100 using ~7Hz elastomer bearings was chosen.

The area directly above the main auditorium also contained toilets and washrooms and CDM-UK designed a permanent soft joint which became part of the jack-up floor slab.
