

The Egg Theatre, Bath

Floating Floors

CDM-ISO-LAT-50

Client The Egg Theatre
Main Contractor Emerys of Bath
Architect Howarth Tompkins
Acoustic Consultant Fleming & Barron
Area 120m²

The Egg Children's Theatre in Bath is a new theatre complex that is part of the Theatre Royal in Bath. The new spaces have been successfully integrated into the existing Georgian shell to provide one of the countries finest arts facilities for children.

Directly above the main auditorium is the rehearsal room. Fleming & Barron, the acoustic consultants for the project, specified that a CDM-ISO-LAT concrete floating floor should be installed in this room to ensure that both spaces can be used simultaneously without any disturbance.
