## Isolation of Machines

CDM-ISO-LOOM-CONTACT, CDM-ISO-FIX

**CDM Partner**

**Kule Mimarlik**

**Job Type**

**Vibration and Noise Control for  
Textile Machinery**

**Client**

**Aydin Textile & MFG Co.**

The client is one of the biggest textile manufacturers in the country. For their 28.000 m<sup>2</sup> new plant in Adapazarı their aim was reducing the structure-borne noise transmission and lowering routine machine maintenance costs as well.

To achieve these goals the following was done:

- multilayered CDM-ISO-LOOM-CONTACT supports, appropriate for the machinal weight, applied for 300 weaving machines.
- the supporting steel towers of the Jacquards are decoupled from the floor by means of CDM-ISO-FIX setups.
